### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Striker (reg. No. 27233) on 5/4/11.

The application has been amended as follows:

Claim 1 has been amended as follows:

1. A stator for an electrical machine, ~~in particular a rotary current generator~~, in which the stator (36) is made by the flat-packet technique and comprises at least one stator iron (10, 30) and the stator iron (10) has a substantially annular-cylindrical shape, and in which the stator iron (10) has an axial direction (a) which is oriented in the direction of a cylinder axis, and the stator iron (10) has an end face which is oriented in the direction of the cylinder axis and defines a slot area ( $A_{\text{Nut}}$ ), wherein a ratio  $A$  formed of the slot area ( $A_{\text{Nut}}$ ) and the end face area amounts to between 0.4 and 0.7, wherein the stator iron (10, 30) has a number of individual laminations (13) which are stacked one above the other, and also has two face ends (22) which rest directly against one another.

Art Unit: 2834

2. The following is an examiner's statement of reasons for allowance:

While the prior art of Asao et al. and Ojo disclose some of the claimed invention of claim 1, the references do not sufficiently teach the combination of features including a ratio A formed between the slot area and the end face area amounting to between 0.4 to 0.7, and the combination of features as claimed is ultimately found to be considered allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALEX W. MOK whose telephone number is (571)272-9084. The examiner can normally be reached on 7:30-5:00 Eastern Time, 1st Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Quyen P. Leung can be reached on (571) 272-8188. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
